# SPRINT BACKLOGS

PROCESS FRAMEWORK

## SPRINT BACKLOGS

---

- ▶ A subset of Product Backlog
- ▶ Specified and discussed with all the team members especially with the product owner during the Sprint Planning Meeting
- ▶ Estimated by more than one person (ideally, entire team)
- ▶ If it takes longer than a couple of days, they should be split
- ▶ No changes are made during the Sprint that would endanger the Sprint Goal
- ▶ Team will discover additional tasks needed to meet the Sprint Goal during Sprint execution
- ▶ Visible to the team
- ▶ Referenced during the Daily Scrum Meeting
